NEVADA – CLIMATE

Nevada's climate is sunny and dry, with wide variation in daily temperatures. The normal daily temperature at Reno is 49°F (9°C), ranging from 32°F (0°C) in January to 69°F (21°C) in July. The all-time high, 125°F (52°C), was set at Laughlin on 29 June 1994; the record low, -50°F (-46°C), at San Jacinto on 8 January 1937.

Nevada is the driest state in the US, with overall average annual precipitation (1971–2000) of 7.5 in (19 cm) at Reno. Snowfall is abundant in the mountains, however, reaching 60 in (152 cm) a year on the highest peaks.

- **[The Bellagio Fountains- Las Vegas, NV](#)**

The fountains put on their show -- wonderfully timed to music choreography -- every 15 minutes or so after dark and last for a few minutes. It's very pretty and lasts for the duration of the song. Stay for many other songs, especially the Michael Jackson one. The water streams move in the Jackson way. Don't go on high wind day, not only you get wet, the show may be stopped for that reason. There is plenty to see at the Bellagio, so time your visit so that you can pick up at least two fountain displays.

- **[Red Rock Canyon National Conservation Area- Las Vegas, NV](#)**

Red Rock Canyon was designated as Nevada's first National Conservation Area. Red Rock Canyon is located 17 miles west of the Las Vegas Strip on Charleston Boulevard/State Route 159. The area is 195,819 acres and is visited by more than one million people each year. In marked contrast to a town geared to entertainment and gaming, Red Rock offers enticements of a different nature including a 13-mile scenic drive, more than 30 miles of hiking trails, rock climbing, horseback riding, mountain biking, road biking, picnic areas, nature observing and visitor center with exhibit rooms and a book store.
